# INTRODUCTORY.

THE Publishers take pleasure in presenting the sixth edition of the Alton Directory under their management, to the public.

This volume will show an increase of over 400 names more than was in our last publication not two years ago, which means an addition of at least 1,000 to the population of Alton and Upper Alton, or a total for both of 26,000.

We thank our patrons for the liberal support given us, without which it would have been impossible to produce this book, and trust to have their kindly aid on our future publications of Alton.
